Responsibilities

- installation and maintenance of internal development LAMP server
- trac/subversion on the dev server
- phpUnderControl / CruiseControl on the dev server

Jan 2006 → May 2006 » System Developer – Intermedium AS

I started at Intermedium AS after I finished graduating from NTNU in January of 2006. At Intermedium I was part of a small 3 man IT department that supported the main operation of the business. In May the company moved to Oslo so I started at GoMobile.

I worked with the following technologies while at Intermedium: Java SE, Maven, Spring, Hibernate, MySQL, Nutch

Jun 2002 → Jan 2003 » Web developer – Steinhaug Web deign

I worked as a web developer in PHP during the summer of 2002 and also did some work part time during the fall of 2003.

Jun 2000 → Jun 2001 » Web developer – Interweb AS

I started working for Interweb AS as a web developer during the summer of 2000. During the school year 2000/2001 I worked 50-80% part time on the team that created the Sense.no web portal. I left Interweb to move to my girlfriend in Trondheim.

Sep 1998 → Jun 1999 » Boxer Technologies

I worked part time during my first year at College, and during the summer vacation. The work was mostly creating educational software in Macromedia Authorware.

Volunteer Work

My volunteer work are either related to my hobby as a role-playing/board-gamer or to organizing groups for computer professionals/students.
